

GIRLS! LEMONS.

WHITEN HANDS

Press the juice of two lemons into a bottle containing three ounces of Orchard White, which any drug store will supply for a few cents, shake well, and you have a quarter pint of harmless and delightful lemon-bleach lotion to soften and whiten red, rough or chapped hands. This home-made lemon lotion is far superior to glycerin and rose water to smoothen the skin. Famous stage beauties use it to bleach and bring that soft, clear, rosy-white complexion, because it doesn't irritate.—Advertisement.

Mrs. A. M. EASTMAN

ARE YOU A MOTHER?

Health Is Your Most Valuable Asset—Here Is How to Take Proper Care of It.

Richmond, Va.—"Dr. Pierce's Favorite Prescription was recommended to me by my mother-in-law, who had great faith in its efficiency, and after using it I was an equal advocate of it. I am the mother of eight children, and as a precaution to guard against many of the unpleasant features and the many discomforts that accompany this delicate period, and to give me tone and strength to fit me properly to become a mother, I took the 'Favorite Prescription' all through four expectant periods, and I am happy to relate I received the full benefit of the medicine and could not have had a more comfortable experience. Also I never found anything to equal Dr. Pierce's 'Lotion Tablets' which entirely cured me of a disagreeable catarrhal condition. The 'Pleasant Pellets' have been equally as valuable as a gentle, mild cathartic."—Mrs. A. M. Eastman, 1703 W. Cary St.

Go to your neighborhood drug store today and get Favorite Prescription in tablets or liquid or send 10c to Dr. Pierce's 'Invalids' Hotel in Buffalo, N. Y., for trial pkg. tablets and write for free medical advice.

YOUR OWN TEETH ARE BEST

Natural teeth are better than artificial ones. Keep them as long as possible by using the tooth paste that guards them against decay. Mag Lac, the milk of magnesia tooth paste, corrects and prevents acid mouth which is the great cause of decay. This is a well-known fact to all dentists. Why not give yourself the benefit of it? The 50-cent tube lasts eleven weeks. Get one at any of these handy Penslar Stores—All of Peoples Drug Stores in Washington are Penslar Stores.

U. S. MAY PUT BANK PIRATES ON BLACKLIST

Borrowing at 5 Per Cent and Lending at 10 Per Cent to Be Stopped.

By W. H. ATKINS.

International News Service. Bank profiteers who borrow money from Federal reserve banks at 5 per cent and extort 10 or 12 per cent in interest rates from farmers are to be blacklisted, Administration officials declared today. Drastic action is to follow the President's expose of the methods of some bankers in the farming regions. Officials of the War Finance Corporation were conducting searching inquiry today to ascertain to what extent bankers or other borrowers of Government funds may have employed them to hold up the farmers or other agriculturalists in usurious rates of interest on Government money.

Other Government agencies also were engaged in a hunt for the profiteer banker, wherever he may be, and regarding his financial connections or political influences.

SALVATION ARMY SERVES FOOD TO RESCUE CORPS

Tales of devotion in connection with the Knickerbocker disaster multiply from moment to moment. The Salvation Army was early on the scene and working under their aegis a little group of women, residents of the Cordova, have kept the rescue workers supplied with coffee and sandwiches.

For thirty hours Mrs. Chase Boston ran her car back and forth every hour to the scene of the disaster, carrying sandwiches and hot coffee, while her apartment was used as headquarters for those making sandwiches. Among the women who worked in relays or spent most of last night at the Knickerbocker distributing coffee were Mrs. Cliff Bangs, Mrs. Mary Paulding Rice, Mrs. L. D. Green, Mrs. I. W. Kite and Mrs. Edward Whitehouse.

TWO HOUSE PAGES LOSE LIVES IN KNICKERBOCKER

The House mourns today two of its pages who were victims of the Knickerbocker Theater disaster. Laverne Sproul and Cutler Laflin, the pages, were from Chicago. They were "buddies." Sproul was a nephew of Congressman Elliott W. Sproul, Republican, Chicago, and was stationed at a door of the Republican side of the House chamber. Laflin had lived in Washington for some years. During the day he was page in the Republican cloakroom of the House, and at night he acted as usher at the Knickerbocker. Sproul frequently accompanied Laflin to the theater. They were dead when taken from the ruins.

Chester Thrift, another House page, assigned to the House press gallery was an usher at the Knickerbocker. He was detained during the afternoon at the press gallery, and the severe storm prevented his reaching the theater in time to take up his evening duties.

EGYPT UNREST REPLACES TURBULENCE IN IRELAND

LONDON, Jan. 31.—With the grave, long standing Irish trouble out of the way, the British government is turning its attention to political unrest in Egypt. Field Marshal Allenby, British high commissioner in Egypt, has been recalled to make an exhaustive report on Egyptian conditions, it was learned today.

Following the issuance of an official statement by the foreign office outlining the conditions on which Britain will terminate the protectorate over Egypt, it was reported this morning that the Egyptian issue probably will be debated in the House of Commons when Parliament convenes on February 7.

The Latest Word from Paris

By Marie Suzanne

(Copyright, 1921.)

PARIS, France.

FROM Alice Bernard comes a sports frock of white cotton crepe figured in blue, of a sort which we hope will be widely worn for spring. Its bodice continues in one with a tunic over the skirt, and all of this is edged with narrow white cire braid. The skirt is a straight one-piece model, repeating the line of pearl buttons that trims the bodice, while red bakelite and dull silver in the girdle add a note of contrast.

A TAILLEUR, youthful and springlike, is achieved through the touching of gray velours with gray squirrel, and an unusual flight of fancy inspires Lanvin to thread the squirrel through the ends of the collar and let thin strips of it fly. To be entirely correct, one wears with it a blouse of rose mousseline with fine braiding in dull green and gold, the sleeves slit nearly to the shoulder.

Secretary of War Weeks today announced the contract covering Henry Ford's offer for the Government water power project and nitrate plants at Muscle Shoals, Ala., probably will not be transmitted to Congress until Wednesday or Thursday. It had been planned to submit the document to the House and Senate today.

WEEKS DEFERS REPORT ON OFFER FROM FORD

Weeks explained the delay was caused by his desire to discuss his recommendations on the Ford offer with President Harding, Secretary of Commerce Hoover, and other officials before turning the contract over for Congressional action.

The Best Cough Syrup is Home-made.

Here's an easy way to save \$2. and yet have the best cough remedy you ever tried.

You've probably heard of this well-known plan of making cough syrup at home. But have you ever used it? Thousands of families, the world over, feel that they could hardly keep house without it. It's simple and cheap, but the way it takes hold of a cough will soon earn it a permanent place in your home.

Into a pint bottle, pour 2½ ounces of Pinex; then add plain granulated sugar syrup to fill up the pint. Or, if desired, use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, it tastes good, never spoils, and gives you a full pint of better cough remedy than you could buy ready made for three times its cost.

It is really wonderful how quickly this home-made remedy conquers a cough—usually in 24 hours or less. It seems to penetrate through every air passage, loosens a dry, hoarse or tight cough, lifts the phlegm, heals the membranes, and gives almost immediate relief. Splendid for throat tickles, hoarseness, croup, bronchitis and bronchial asthma.

Pinex is a highly concentrated compound of genuine Norway pine extract, and has been used for generations for throat and chest ailments.

To avoid disappointment ask your druggist for "2½ ounces of Pinex" with directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded. The Pinex Co., Ft. Wayne, Ind.

CAR SERVICE IS AGAIN RESUMED TO CLARENDON

Trolleys Running to Practically All Parts of Arlington Co. Bus Drivers Open Roads.

CLARENDON, Va., Jan. 31.—With the advent of higher temperature yesterday the Washington and Virginia Railway set to work to dig rather than be stranded throughout northern Virginia.

At 10 o'clock yesterday morning intermittent service had been established between Washington and East Falls Church. This was augmented, until at 6 o'clock, commuters were able to reach all points in Arlington and Fairfax counties. The first car for Washington came through this morning at 6 o'clock and the schedule was maintained thereafter.

Suburbanites who attempted to reach their homes Saturday night on the Washington and Virginia road underwent real suffering. At one point just below Clarendon a car bound for Falls Church left the rails. It was filled with women, young girls and men anxious to gain their homes before the snow cut off all transportation. Rather than wade through the ten-foot snow drifts in an effort to gain the shelter of houses 100 yards some of the women preferred the confines of the car. They remained inside until 7 o'clock Sunday morning.

Got Food at Nearby Homes. The drifts were then many feet higher, but there was no hope of moving the stalled car so the occupants were forced to go to nearby homes in order to obtain food. Many of them were cared for until late yesterday.

Occupants of many homes in this section were panic stricken Sunday when the first news of the Knickerbocker Theater tragedy in Washington was spread abroad.

In many cases parents and children who had gone to their work in the Capital Saturday morning had been unable to get home or communicate with their residences, and it was feared they were in the theater when it collapsed. It was not until the complete list of dead was published in The Washington Times yesterday that those left at home felt sure of the safety of their loved ones.

Capt. R. Conroy Vance, of Richmond and Fredericksburg, who with his wife was killed in the disaster, was well known in this section of Virginia.

Captain Vance was president of the "Planters' National Bank of Fredericksburg, president of the Fredericksburg Hotel Company, president of the Farmers' Creamery Company, and owner of the famous Mansfield Hall herd of thoroughbred Jersey cattle, near Fredericksburg.

Through the valiant efforts of

bus drivers and a few citizens, Wilson Boulevard, which is the main highway artery through Arlington county, is now passable.

Bus drivers not only bucked the drifts all day Sunday with their heavy trucks, but made up a pump and hired a heavy-duty tractor which hooked on an improvised snow plow and opened up the higher drifts which the trucks could not negotiate.

Fire Chief A. B. Eaton, of Clarendon, hired a six-horse team which he attached to a road scraper and went over the boulevard several times yesterday.

It is expected that the case of the citizens of Clarendon, who are seeking incorporation of the community as a town, will come before the supreme court at Richmond the latter part of this week.

Church Weeps for Organist.

The congregation of St. Margaret's Protestant Episcopal Church wept audibly all during the services yesterday morning because for almost the first time in twenty-seven years the organist, Guy S. Eldredge, was not at his place at the organ. He was among the dead of the Knickerbocker disaster.

Expert Staff of Assistants

Expert skilled and careful dentists, aided by every device conceived for the relief and comfort of the patient are standing ready and willing to serve you. Instruments are sterilized before using. Cleanliness is strikingly evident throughout our institution.

All work done without the slightest semblance of pain. By Dr. Wyeth and Staff of Expert Careful Dentists That Have Been My Record for the Past 20 Years.

Terms of Payment to Suit—Examination Free. 30 YEARS OF GOOD, HONEST DENTISTRY OUR RECORD

My perfect Suction Teeth Will Not Slip or Drop—\$5.00. Other Sets of Teeth, \$5.00 up. Gold Crowns and Bridges Work. \$3—\$4—\$5 For Teeth. Fitting, like to fit you, in gold, silver, porcelain or platinum.

The Wonderful Human Body

And Athletics Worth While.

Copyright, 1922, by Star Company.

GEORGE L. HOSSFELD, CHAMPION TYPEWRITER OF THE WORLD.

Here is, for the time being, the world's champion typewriter and a really useful athlete.

He beat all comers, writing steadily for one hour, 136 WORDS A MINUTE, which means twelve strokes a second.

Look at the second hand as it moves on your watch, or count 1, and realize that what it means for the human brain to order and carry out twelve different motions of the fingers in one second. There is intensified mental athletics that makes the hundred-yard dash, the pole vault or the Marathon seem slow, to say nothing of being useless.

As this young man wrote in the contest, he read and copied a story which he had not seen before, called "In God's Country." And do you realize the various operations included in that marvelous performance of twelve strokes per second.

The eye read the word. The nerves of the eye told the brain what word was to be written. The brain told the fingers what the letters were, where they were located on the machine, and the flying fingers, taking the knowledge that first came to the eye or the afferent nerves, and the order they came down the neck, the arms to the finger tips through the efferent nerves, made the twelve strokes successfully.

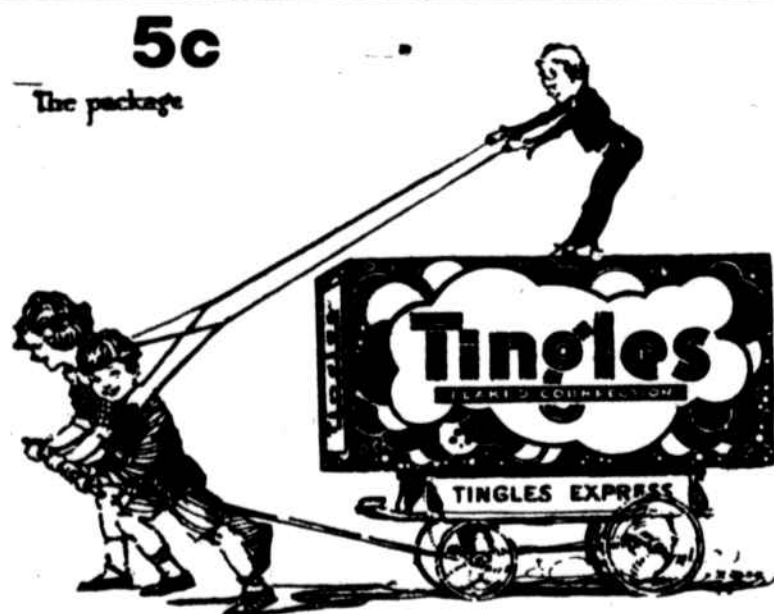

He kept his mind entirely on that for one hour. That wonderful dynamo, that stored energy, the eye seeing, the brain immediately transforming the printed word in the letters, the nerve and the muscles in the fingers carrying out the brain's orders. It is difficult to conceive anything more remarkable. Young Mr. Hossfeld may well include in his daily prayer: "I will praise the Lord, for I am fearfully and wonderfully made." It takes intelligence to do good typewriting; it takes extraordinary adaptability, co-ordination of nerves and muscles, steadiness and will power to do what this young man did.

He deserves praise, as does every man who does A USEFUL THING AS WELL AS IT CAN POSSIBLY BE DONE.

EQUAL, almost, to the "Wonderful Human Body" is the Underwood Typewriter, used by Mr. Hossfeld, and ALL previous world's champion typists for 16 consecutive years. It is so scientifically designed, so skillfully manufactured, that it responds with unerring accuracy even at the marvelous speed of 12 strokes per second.

While her Daddy was away in the War

LITTLE MAY JANETTE was a "war baby" born while her father was in the service. Mrs. Martin, finding it necessary to return to her work, started her baby on Borden's Eagle Brand Milk. As May Janette's five little cousins were brought up on Eagle Brand, naturally Mrs. Martin had great confidence in it. And with good reason. For May Janette—now three-and-a-half years old—"is strong, sturdy and full of life and energy" her mother says.

Don't experiment with your baby's food. Eagle Brand has been the standard infant food for many years. Countless mothers, like Mrs. Martin, have found that it made their babies strong and well. Thousands of physicians have recommended it for babies who were underweight and undernourished. For Eagle Brand is very easily digested.

Actually Borden's Eagle Brand Milk contains nothing but pure milk and pure sugar. It is the natural food if mother's milk is not available. It is always pure and uniform. You can get it anywhere.
